

Additional Resources from the IAPCHE All-Africa Conference of November 2018

There are two additional resources from the IAPCHE All-African Conference:

1. Bennie van der Walt's plenary address is being published in four journal articles through the *Journal for Christian Scholarship*, an African publication. The first two of these articles appear in Volume 55, quarters 1 and 2. To read the full articles go to: www.cs-journal.co.za.
2. The schedule of presentations below identifies both plenary and concurrent session speakers with their topics. The INCHE office retains an abstract and contact information for each of these conference leaders. Email office@inche.one with a request for additional information on any specific speaker. We will respond with a further description of the session content and information about the presenters.

As a network we note that our network name has changed from IAPCHE to INCHE the International Network for Christian Higher Education as of January 2019. At the time of the All-Africa Conference the network was titled as IAPCHE.
